Retail

This chapter digs into the **retail functions of JeraSoft Billing**. Please be advised that all these functions are available if your JeraSoft Billing installation includes **the Retail Module.**

In addition to vast wholesale functionality, JeraSoft Billing offers the retail module described in below sections of this chapter. Each section describes an important aspect of retail-based VoIP business, such as Calling Cards, Payment Gateways, Subscription Packages, Top-Up Cards, and Call Shops. All of these options are grouped within the **Retail** section of your JeraSoft Billing solution.

The list of sections is as follows:

- Packages
- DID Management
- Calling Cards
- Top-up Cards
- Call Shops
