

JeraSoft Billing 3.9.7

JeraSoft is announcing the release of new version **VCS 3.9.7**. This **3.9.7**. release brings a number of enhancements of already existed features. What's new in this release (see below for details):

General

Invoice Templates

From now on, you can **enter the special characters as & * ; + " % #** or other symbols in the names of accounts, packages, invoices, VoIP groups or code names, etc. And the system will recognize and display them correctly **while generating invoices or using invoice templates**.

Screenshot: "Invoice Templates" settings

ID	Name	Type	Reseller	Notes
8		PDF	all resellers	all variables are here and CDRs are enabled in.csv
19	CSC_default	PDF	all resellers	
20	CSC with balance previous	PDF	all resellers	
6	November & December	PDF	all resellers	
16		PDF	all resellers	
17		PDF	all resellers	

Client Packages

The new possibility appeared in the **Client Packages**. You can easily **edit the "Deal End Date"** of assigned package by clicking the respective icon  in the full list of existed packages. When you click the icon **"Edit Client Package"** , a new window with appropriate settings will appear. Here you can change a specified deal end date.

Screenshot: List of Client Packages

Client	Account	Package	Volume Limits	Start Date	Expire Date
test		Package		12/23/2015 16:54:41 +0000	01/23/2016 16:54:41 +0000
test		Charge	Destination: * ; Total: 20:00; Used: 00:00 / Left Over: 20:00	12/23/2015 11:32:49 +0000	01/23/2016 10:59:59 +0000
Money Talk		test	Destination: * ; Total: 10:00; Used: 10:00 / Left Over: 00:00	12/22/2015 15:59:31 +0000	01/22/2016 14:59:59 +0000
Money Talk		test	Destination: * ; Total: 10:00; Used: 10:00 / Left Over: 00:00	12/22/2015 13:53:19 +0000	01/22/2016 13:00:00 +0000

Needs charging: No

OK Cancel Apply

In the previous version the system didn't allow to assign the package with expired date. And the following error was shown by the system:

 Activation\Deactivation date was changed and is older than present date. 

Now, it is possible to **assign an backdating package** in the **Client Packages**. In order to update the deal end date of package you need to change it in the Client Package settings and then **restart the Package Manager**.

 Please be aware that you should **run the Package Manager several times** until the current period of the package or its end date.

 Please note, when you edit the **"Deal End Date"** field of already assigned package, transactions will not be remained unchanged.
