## Section overview

A Rate Table is one of the three core elements of the entire JeraSoft Billing system. Its purpose is to contain determined rates (prices) for each code (destination) on the list. This section allows you to manage your rate tables. It is presented in the form of a table with the following fields:

*Screenshot: Rate Tables section*

ID	Name	Currency	Src Code Deck	Dst Code Deck	Reseller	Notes
1	Orig	USD			Company Name	
7	ORIG RT - Test	USD			Company Name	
2	Term	USD			Company Name	
5	TERM RT - Orig	USD			Company Name	

Column Name	Description
<b>ID</b>	Rate table's identification number
<b>Name</b>	Name of a rate table
<b>Currency</b>	The currency of a rate table
<b>Src Code Deck</b>	Name of a source code deck, where names for Src codes are taken from
<b>Dst Code Deck</b>	Name of a destination code deck that contains Dst code names
<b>Reseller</b>	Name of a reseller respective rate table belongs to
<b>Notes</b>	Additional information about a rate table

**Functional buttons and icons**, presented in the section, are as follows:

Button/Icon	Description
	Allows adding a new rate table to the system
	Allows managing rates within a specified rate table
	Allows managing special rates within a specified rate table
	If active (in color), allows running a rates generator tool on a specified rate table
	Forces rates notification to the clients
	Allows deleting a rate table from the system

## Advanced Search

In the top right corner of the section above the table, an **Advanced Search** drop-down menu is located. By clicking on a blue downward arrow icon, the following drop-down menu is displayed:

Screenshot: Advanced Search drop-down menu

The screenshot shows a search filter panel with a blue upward arrow icon in the top right corner. It contains four dropdown menus: 'Reseller' (set to 'all resellers'), 'Src Code Deck', 'Dst Code Deck', and 'Currency'. At the bottom, there are two buttons: 'Reset' and 'Search'.

## Adding New Rate Table

To add a new rate table, click the **New Rate Table** button and define the respective values in a pop-up window:

Field	Description
<b>Name</b>	The title of a respective rate table
<b>Reseller</b>	The Reseller, to whom this rate table belongs
<b>Parent Rate Table</b>	<p>The rate table to inherit rates from. Codes with the same length in the current rate table will have the priority. However, longer codes from the parent rate table will override the codes in this rate table</p> <div style="background-color: #ffff00; padding: 5px;"> <p><b>! Attention</b></p> <ol style="list-style-type: none"> <li>Please note that the <b>currencies</b> of a parent and current rate tables <b>should be the same</b>.</li> <li>The working method with a <b>Parent Rate Table</b> could be applied <b>only for origination</b>.</li> </ol> </div> <p>For example, you can create a <i>Child Rate Table</i> for some destinations and add special rates. Then, specify a respective <i>Parent Rate Table</i> (that includes all standard rates) in the <i>Child Rate Table</i> settings. And assign this <i>Child Rate Table</i> to the Client.</p>
<b>Src Code Deck</b>	Indicate a code deck that contains source codes and code names
<b>Dst Code Deck</b>	The deck that consists of a list of destination codes and code names
<b>Currency</b>	Preferred currency (will be used in invoices)
<b>Rates with Taxes</b> checkbox	Tax settings. It's disabled by default. If you enable it, all rates will include the above tax in their values. When it is disabled, the tax value will be added as an additional invoice parameter.
<b>Description</b>	Additional information

**Rate Tables**

**GENERAL SETTINGS**

Name:

Reseller:  Reseller 1 ▼

Parent Rate Table:  ▼

Src Code Deck:  ▼

Dst Code Deck:  ▼

Currency:  ▼

Rates Include Taxes

Description:

This section will also store all rate tables that you plan to analyze via the **Rates Analysis** section. You will be able to change these settings later by using the **Parameters** tab. After everything is entered, click **OK**. A new rate table will appear on the list.

## Configuring Rates

You can configure the rates by clicking on the respective name of the rate in the full list. The rate management has a panel with the following tabs:

Tab	Description
<b>Parameters</b>	Here you can change some parameters that you've specified during rate table creation
<b>Simulate</b>	Call simulation tool
<b>Import History</b>	Here you can view the history of importing from the <b>.csv</b> or <b>.xls</b> files

## Knowledge Base Articles

**Error rendering macro 'contentbylabel'**

parameters should not be empty
