

Output and Import/Export

In this information block, you can specify output and import/export parameters, including time and date parameters configuration:

Screenshot: Output and Import/Export settings window

| OUTPUT AND IMPORT/EXPORT | | |
|--------------------------|---------------------------------|--|
| Items per Page: | <div>20</div> | Default number of items per page in the system interfaces. |
| CSV Delimiter: | <div>,</div> | Default delimiter used for CSV files when importing/exporting |
| CSV Decimal Point: | <div>,</div> | What will be used as a decimal separation point for numbers ("," for most cases) |
| Close Rates marked by: | <div>delete, block, close</div> | When importing a rate table, if some rates have notes that they are closed, the system will close the appropriate destinations after importing them. This field defines what marking words must be taken as ones closing a rate. The system also searches for longer words. For example: close - closed, delete - deleted, etc. Please avoid sentences and use only single words, separated by a comma (block, close). |
| Hidden Numbers: | <div>0</div> | The number of digits, which must be hidden in a destination number |
| Output Encoding: | <div>UTF-8</div> | Encoding that will be used during exporting data to a file. |
| Import Encoding: | <div>UTF-8</div> | Encoding that will be used during importing data from a file. |
| Default PIN Length: | <div>12</div> | For Calling Cards only — default length of PIN code for generated cards |

| Field | Description |
|------------------------------|--|
| Items per Page | Set default quantity of items displayed on a single page |
| CSV Delimiter | Set default delimiter for CSV files |
| CSV Decimal Point | Set default decimal point for CSV files |
| Close Rates marked by | When importing rate sheets , the system will be able to close respective rates if the Rate column has one of the keywords entered here |
| Hidden Numbers | Specify how many digits of a number should be hidden when this function is activated for a customer |
| Output Encoding | Select, which encoding to use when exporting a file |
| Import Encoding | Select, which encoding to use while importing data from a file |
| Default PIN Length | Sets the default length of a PIN-code when creating calling card series |
