

# Output and Import/Export

In this information block, you can specify output and import/export parameters, including time and date parameters configuration:

Screenshot: Output and Import/Export settings window

OUTPUT AND IMPORT/EXPORT		
Items per Page:	<input type="text" value="20"/>	Default number of items per page in the system interfaces.
CSV Delimiter:	<input type="text" value=","/>	Default delimiter used for CSV files when importing/exporting
CSV Decimal Point:	<input type="text" value=","/>	What will be used as a decimal separation point for numbers ("," for most cases)
Close Rates marked by:	<input type="text" value="delete, block, close"/>	When importing a rate table, if some rates have notes that they are closed, the system will close the appropriate destinations after importing them. This field defines what marking words must be taken as ones closing a rate. The system also searches for longer words. For example: close - closed, delete - deleted, etc. Please avoid sentences and use only single words, separated by a comma (block, close).
Hidden Numbers:	<input type="text" value="0"/>	The number of digits, which must be hidden in a destination number
Output Encoding:	<input type="text" value="UTF-8"/>	Encoding that will be used during exporting data to a file.
Import Encoding:	<input type="text" value="UTF-8"/>	Encoding that will be used during importing data from a file.
Default PIN Length:	<input type="text" value="12"/>	For Calling Cards only — default length of PIN code for generated cards

Field	Description
Items per Page	Set default <b>quantity</b> of items <b>displayed</b> on a single page
CSV Delimiter	Set default <b>delimiter</b> for CSV files
CSV Decimal Point	Set default <b>decimal point</b> for CSV files
Close Rates marked by	When importing <b>rate sheets</b> , the system will be able to close respective rates if the <b>Rate</b> column has one of the keywords entered here
Hidden Numbers	Specify how many <b>digits</b> of a number should be <b>hidden</b> when this function is activated for a customer
Output Encoding	Select, which <b>encoding</b> to use when <b>exporting</b> a file
Import Encoding	Select, which <b>encoding</b> to use while <b>importing</b> data from a file
Default PIN Length	Sets the default <b>length of a PIN-code</b> when creating calling card series
