Section overview

This section allows generating the profit report, which analyzes profitability data and defines profits between **Reseller** parties (companies and managers) and **Clients** belonging to the respective Reseller/Manager.

For example, when **Manager_1** executes a profitability report, it allows seeing their origination customers sending traffic to **Manager_2**, who owns the actual terminator vendors. In this case, Reseller's permissions apply to every query, which guarantees that **Manager_1** will **not** be able to see any actual name of a client belonging to another manager or another party that restricts such access.

Query

Creating a Profit Report

To generate a profit report, you need to fill in the required parameters in the form and click the **Query** button. To get information sorted, use the **Group by** option and choose respective values from the drop-down list.

The list of query fields is as follows:

Information block	Field Description
Filters	On the Filters menu, select the required parameters for the report. To cancel any filter, click the delete  icon next to the filter. You can start a quick search by typing filters' names in the field at the top of the drop-down menu with filters.
	<div><div>Period (1)</div><div>Specify the time interval for the report and a timezone. Please note that the Period field is mandatory.</div></div>
	<div><div>Period 2</div><div>Accessible when you enable the Compare Period option by clicking on the plus  icon next to the Period. Specify the second interval for the report.</div><div><div> Tip</div><div>When you select one of the Time parameters for Group by, the end date of the Period 2 will be set automatically to make equal intervals of Period 1 and Period 2.</div></div></div>
	<div><div>Reseller</div><div>Specify the name of a target Reseller.</div></div>
	<div><div>Mode</div><div>Choose the mode of the report:<ul style="list-style-type: none">• All visible - all represented visually.• Hide External Originators - all external originators of the selected manager will not be displayed.• Hide External Clients - only events made solely between clients of the chosen manager will be shown.By default, the field value is set to All visible</div></div>

Group by	<p>Select a grouping option. Here you can choose and swap columns, as well as change their order. There are the following accessible options to group data in reports:</p> <ul style="list-style-type: none"> • Time: Year, Month, Day, Hour. • Clients: Income Client, Income Account, Income Code, Income Code Name, Orig Rate, Outcome Client, Outcome Account, Outcome Code, Outcome Code Name, Term rate, Package name. • Extras: Service Name, Income Series. <div style="background-color: #ffffcc; padding: 10px; margin-top: 10px;"> <p> Attention</p> <p>Please note that the Group by field is mandatory, it couldn't be left empty to generate the report.</p> </div>
Additional Filters	
<p>There are the following accessible filters:</p> <ul style="list-style-type: none"> • Clients: Income Client, Income Client's Tag, Income Account, Income Account's Tag, Income Code, Income Code Name, Income Serial, Income Reseller, Outcome Client, Outcome Client's Tag, Outcome Account, Outcome Account's Tag, Outcome Code, Outcome Code Name. • Extras: Package, Service name. 	
Income Client	Specify an origination client(s) for the report
Income Client's Tag	Specify a tag(s) assigned to origination clients
Income Account	Determine an origination client's account(s)
Income Account's Tag	Indicate origination account's tags
Income Code	Define an incoming code
Income Code Name	Specify an incoming code name
Income Serial	Indicate a serial number of the originator's calling card
Income Reseller	Specify a target reseller(s) for the report
Outcome Client	Define a termination client(s)
Outcome Client's Tag	Define a termination client's tag(s)
Outcome Account	Indicate an account(s) of the termination client(s) for the report
Outcome Account's Tag	Specify termination account's tags if any
Outcome Code	Specify a termination code of the client
Outcome Code Name	Indicate a termination code name
Package	Determine the name of the used package
Service name	Specify the name of the service
Output	<p>This form contains settings of the report output data.</p> <p>Click a plus  sign next to Columns and select required columns to add them to the Output information block. Also, you can cancel any chosen item.</p>

Accessible columns in the report	
<p>Additional columns of the report are:</p> <p>Columns for the main period:</p> <p><i>Volume Total, Income Cost, Income Avg Rate, Income Billed Volume, Outcome Cost, Outcome Avg Rate, Outcome Billed Volume, Profit, Profit rel.</i></p> <p>Columns for the comparative period:</p> <p><i>Volume Total, Income Cost, Income Avg Rate, Income Billed Volume, Outcome Cost, Outcome Avg Rate, Outcome Billed Volume, Profit, Profit rel, Profit (%), Profit rel (%), Income Cost (%), Outcome Cost (%), Income Avg Rate (%), Outcome Avg Rate (%).</i></p> <p>And it's possible to choose each parameter expressed in percentage.</p>	
Volume Total	Total time of calls in minutes
Rate	<p>The call rate</p> <ul style="list-style-type: none"> • Income Avg Rate - an average call rate that is used for origination • Outcome Avg Rate - an average call rate that is used for termination
Profit	<p>The revenue</p> <ul style="list-style-type: none"> • Profit - a revenue in a respective currency (in fact, any system currency can be specified here) • Profit rel - a revenue in percent value
Time	<p>The billed time</p> <ul style="list-style-type: none"> • Income Billed Volume - the whole billed time for origination • Outcome Billed Volume - the whole billed time for termination
Cost	<p>The call cost</p> <ul style="list-style-type: none"> • Income Cost - a call cost that is used for origination • Outcome Cost - a call cost that is used for termination
Other output settings	
Order by	<p>Select parameters to sort already grouped data in columns. There are the following accessible options to order the data: by Time, Clients, Extras.</p> <p>Here you can sort data from highest to lowest values (or vice versa) and select different values.</p>
Type	<p>Choose a report format from a drop-down list: Web/CSV/Excel XLS/Excel XLSx</p> <p>Select a table view next to the Type field:</p> <ul style="list-style-type: none"> • Plain - a simple table view • Grouped - a table view with grouped data and possibility to collapse/expand it <div> <p> Attention</p> <p>Please note that the Grouped type of a table view is available only for Excel XLSx and Web formats, it doesn't work with CSV.</p> </div>
Limit	Determine the number of rows that will be visible in the report. It is useful for displaying some top positions by a chosen parameter. It is available only for the plain type of report.
Send to	<p>You can send generated reports via email. Also, it is possible to specify several emails.</p> <div> <p> Attention</p> <p>This feature is available only for CSV, Excel XLS, Excel XLSx formats of the report, it doesn't work with Web.</p> </div>
Currency	<p>Specify a currency for the report.</p> <p>All values will be automatically converted to the specified currency in the report.</p>

Code Deck

Using a drop-down list, select a respective code deck. All code names will be rewritten and presented according to the specified code deck.

If there is no value specified, the code deck assigned to the Client or Rate Table will be in usage.

A generated profit report is demonstrated on a screenshot below:

Screenshot: Profit report section

The screenshot shows the 'Profit Report' section of the software. It includes a sidebar with navigation options like 'Outcome Account', 'Outcome Account's Tags', 'Outcome Code', 'Outcome Code Name', 'Extras', and 'Package'. The main area has filters for 'Period' (Today), 'Reseller' (Reseller A), 'Mode' (All Visible), and 'Group by' (Service Name, Month). The 'OUTPUT' section shows 'Order by' (Income Cost, Outcome Cost), 'Limit' (No Limit), 'Type' (Web, Grouped), 'Currency' (USD), and 'Det Code Deck'. Below the filters is a table with columns: Service Name, Unit, Month, Volume Total, Income Cost, Income Avg Rate, Outcome Cost, Outcome Avg Rate, Profit, Profit Rel, Income Billed Volume, and Outcome Billed Volume. The table shows data for 'Calls' in 'min' unit for '04/2020'.

Service Name	Unit	Month	Volume Total	Income Cost	Income Avg Rate	Outcome Cost	Outcome Avg Rate	Profit	Profit Rel	Income Billed Volume	Outcome Billed Volume
Calls	min	04/2020	76.5167	5.49	0.0833	0.00	0.0000	0.0000	5.49	65.9000	0.0000
Calls	min		76.5167	5.4992	0.0833	0.0000	0.0000	0.0000	5.4992	65.9000	0.0000

If the data is grouped in the report, it will be shown initially collapsed. To expand or collapse data in your report, click the plus or minus icons.

Warning

Please note that the system shows rounded values in the reports. However, while calculating the system takes an exact value. Hence, the procedure of the rounding is as follows:

- the system rounds currency values according to the settings of a respective currency;
- other parameters are rounded to the nearest ten thousandths. For example 3.879256 to 3.8793.

Creating a Query Template

A user can create a template for profit reports and save specified parameters by clicking the **Save Query** button. A pop-up window with settings will appear and you will need to fill out the following form:

Screenshot: New Template form

The screenshot shows the 'Reports Templates' form. It has two main sections: 'PROFIT REPORT' and 'REPORT QUERY'. The 'PROFIT REPORT' section includes fields for 'Title', 'Reseller' (all resellers), 'Visibility' (Private), and a 'WATCH' checkbox (NOT AVAILABLE FOR WEB OUTPUT TYPE). The 'REPORT QUERY' section includes filters for 'Period' (Yesterday), 'Reseller' (Reseller 1), 'Mode' (All visible), and 'Group By' (Month, Service Name). The 'OUTPUT' section includes 'Order By', 'Limit' (No limit), 'Type' (Web, Plain), 'Currency' (USD), and 'Code Deck'. There are 'OK', 'Cancel', and 'Apply' buttons at the bottom right.

Section	Description	
Profit Report	Here you can specify parameters for the template that will be used while running reports	
	Title	Specify a name of the template
	Reseller	Indicate a Reseller of the report template

	<p>Visibility It allows controlling the visibility of respective reports templates. Whether you want to keep templates private or leave them visible for users under a specified Reseller.</p> <p>To enable this option, select one parameter from the drop-down list:</p> <ul style="list-style-type: none"> • Public - available for users according to the settings of the Reseller field; • Private - accessible strictly for a creator. 						
Watch	<p>This tool allows to generate reports automatically at the appropriate time and send the results to the list of e-mails</p> <div style="background-color: #ffffcc; padding: 10px; margin: 10px 0;"> <p>⚠ Attention</p> <p>Please note that this tool is not available for Web output type, only for CSV/Excel XLS/Excel XLSx.</p> </div> <table> <tr> <td>Recipients</td><td>Specify recipients: it can be your own email, other users of the system or even 3rd parties</td></tr> <tr> <td>Run Time</td><td>Define an appropriate time to generate a report automatically. It could be several times, for example, 10:00, 12:00, 18:00</td></tr> <tr> <td>Days of Week</td><td>Indicate days of the week to generate a report automatically. For example, you can run a report only on Monday or each day of week</td></tr> </table>	Recipients	Specify recipients: it can be your own email, other users of the system or even 3rd parties	Run Time	Define an appropriate time to generate a report automatically. It could be several times, for example, 10:00, 12:00, 18:00	Days of Week	Indicate days of the week to generate a report automatically. For example, you can run a report only on Monday or each day of week
Recipients	Specify recipients: it can be your own email, other users of the system or even 3rd parties						
Run Time	Define an appropriate time to generate a report automatically. It could be several times, for example, 10:00, 12:00, 18:00						
Days of Week	Indicate days of the week to generate a report automatically. For example, you can run a report only on Monday or each day of week						
Report Query	Here you need to specify filters that will be used for generating a correct report and choose the output type to view the report.						

To preview or load already existing templates while generating statistic reports, click the **Load Query** button and click on a template name or a  icon, respectively.

Export a Generated Report

You can export data to **XLSx** or **CSV** file, which contains currently presented data by clicking the **Export to XLSx** or **Export to CSV**  button respectively. Please note that **Export to CSV**  is available only when the **Type** of the output is **Plain**.

⚠ Attention

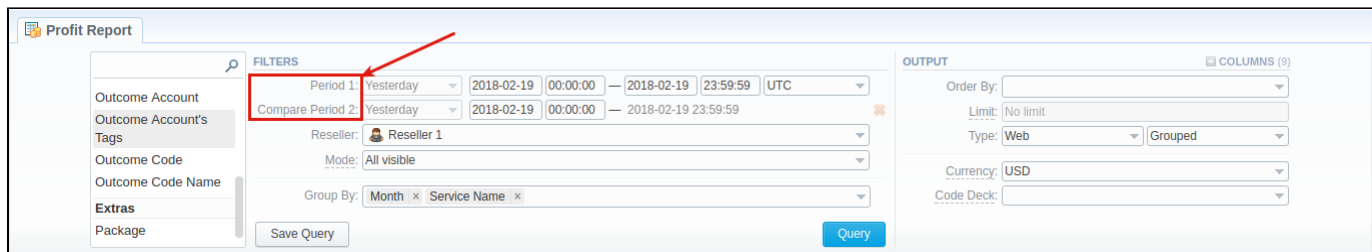

You can check an **actual date interval** of the report by clicking the **Info**  icon, and it could be different from **the Interval** specified above if there is no data for the period.

Side-by-side report

This tool allows building a report with side-by-side sub-reports. Use it to run a comparative analysis on the same page. It's helpful for reviewing multiple parameters, totals and compare results at different time intervals. The **Compare Period** option is designed to create a report that shows two sub-reports side-by-side.

To enable this option, click on the plus  icon next to the **Period** field and specify both intervals (**Period 1/Period 2**) for the report.

Screenshot: Profit Report query form

Then choose columns for the main and comparative period in the report Output form. When all the required parameters are specified, click the **Query** button.

To remove this filter, please click the delete  icon.

You can modify a comparative mode by changing periods and columns. For example, to compare how different the profit of the two periods is, choose the **Profit** value from the Columns. Therefore, the final report splits **Profit** into separate columns (see screenshot below).

Sharing a Report

Each time you get a report output, the system generates a unique link in the format of "/view?id=<uniq-string>". It allows sharing data between the users, even if they belong to different resellers (the feature works similarly to Share by Link in Google Drive).

The link refers to the report data valid for a specific moment.

Example: When you send a link to a report, you ensure the recipient would see the same data as you do. If you change data in the system (for example, perform rerating), the previously copied link to the report will display data valid for the moment of generation (even though the actual data is now different).

You can also view the additional information about the generated report by hovering over the **Info** icon, which is located under the **Output** section:

Title	Description
Data Period	States the period set for a report
Generated by	Indicates the Role of the user who generated a report and specifies a generation time
