- Tax Values Management

## Section overview

**Taxes profiles**, equally as **Time profiles**, is a JeraSoft Billing tool that makes the process of clients' **rate tables** management exceptionally agile. Taxes profile is a **set of tax rules** that can be applied to client's rate tables in different taxation schemes. This section allows you to add, edit, and delete profiles and is presented in the form of a table with the following columns (see screenshot):

Column Name	Description
ID	Taxes profile's identification number
Name	Name of a taxes profile
Profile Owner	List of resellers corresponding taxes profile was assigned to
Notes	Additional information regarding a taxes profile

Functional **buttons/icons** presented in the section are as follows:

Button/Icon	Description
	Allows to create a new taxes profile
	Allows to manage an existing taxes profile on a list
	Allows deleting a taxes profile from the system. Requires confirmation
	Allows to manage a list of tax values of a particular profile
	Opens the Advanced Search drop-down menu

## Advanced Search

In the top right corner of the section above the table, an **Advanced Search** drop-down menu is located. By clicking on a blue downward arrow  icon, a drop-down menu with the following structure is displayed:

*Screenshot: Advanced Search drop-down menu*

Profile Owner:
all resellers

Status:
Active

Reset
Search

Field	Description
<b>Profile Owner</b>	Select from the list of all Resellers, Sub-resellers and Managers registered in the system
<b>Status</b>	Select the status of a taxes profile: To apply the specified search criteria, click the <b>Search</b> button; to cancel the applied parameters, click the <b>Reset</b> button. <ul style="list-style-type: none"> <li>• <b>Active</b></li> <li>• <b>Archive</b></li> </ul>

## Creating a New Taxes Profile

To create a new profile, you need to:

- Click the **New Taxes Profile** button
- Fill in mandatory fields (specified in the table below)
- Click the **OK** button

Apply

Field	Description
<b>Name</b>	Name of a taxes profile
<b>Profile Owner</b>	Select from the list of all Resellers, Sub-resellers and Managers registered in the system
<b>Invoice Notes</b>	If specified, this information will be displayed in issued invoices
<b>Notes</b>	Additional information regarding a taxes profile

## Tax Values Management

To manage a tax value, you need to click the  icon to the left of a corresponding profile name on the list. In the pop-up window you can add a new rule by clicking **Add Tax Value** or edit already existing values. The structure of a pop-up window is as follows:

Page 1 of 1

Name	Value, %	Effective From	Tag	Priority	
basic	15	2014-05-08 00:00:00+00	@	1	
additional	5	2014-05-08 00:00:00+00	@	2	
national	3	2014-05-08 00:00:00+00	@	3	

OK

Cancel

Apply

Field	Description
Name	Name of the tax value added to this profile
Value	Specify a tax value in %
Effective from	Start date of a corresponding tax value
Tag	Specify tag(s) you would like to be applied to corresponding tax value. If no tags are added, you can leave the field blank
Priority	Specify the priority of tax value usage

While operating with tax values, you can apply **Advance Search** to find the value you might be interested in. To do so, click on a red downward arrow in the top right corner of the pop-up window and set the **Status** and **Status Date** fields:

- **Status:**
  - **current on** - if chosen, all tax values with the latest **Effective from** field value will be displayed
  - **old for** - if chosen, all tax values, whose **Effective from** field value is **older** in comparison to its current one, will be displayed
  - **future for** - if chosen, all tax values, whose **Effective from** field value **> Date**, will be displayed
  - **all** - if chosen, **all** tax values will be displayed
- **Date** - set the time and date that will be applied for the search.

By default, tax values displayed in a pop-up window are filtered by the **current on** status.

#### Tip

In cases when you determine a **Priority** status, you basically set the order of the taxation. So, *the tax with **Priority 1*** will add % tax to operation sum, the *tax with **Priority 2*** will add tax % to the **resulted sum** (operation sum + 1<sup>st</sup> tax %). Each following priority will add % tax to operation sum plus all the previous priorities values.

For example:

If operation sum is **100 USD**, and there is a single tax with **Priority 1** and a **value of 10%**, the taxation result will be **10 USD**, so full operation plus tax is **110 USD**.

If there are **two taxes** with priorities of 1 and 2, and values of 10% and 20%, respectively, then the **first tax yield** will be **10 USD**, and **second tax yield** will be **22 USD** (because 20% is calculated from sum of operation + previous tax), and total will be **100 + 10 + 22 = 132 USD**.

#### Warning

You **cannot** delete or archive a tax profile that is **currently assigned** to the *Client, Call Shop, Reseller, or Calling Card*
