Section overview

The **Customer Dynamics** section is designed to illustrate the data for analyzing and improving efficiency easily. Here, reports are presented in the form of a table. However, you can create a chart to interpret key information effectively and facilitate the decision-making process.

Query

Creating a New Report

To generate a report, you need to fill in the form and click the **Query** button. The query form consists of the following parameters:

Information Block	Field Description
Filters	On the Filters menu, select the required parameters for the report. To cancel any filter, click on the delete  icon next to the filter. You can start a quick search by typing filters' names in the field at the top of a drop-down menu with filters.
	<div><div>Period</div><div>Specify the time interval for the report and a timezone. Please note that the Period field is mandatory.</div></div>
	<div><div>Client Type</div><div>Select a client type from a drop-down list of the following options:<ul style="list-style-type: none">• Client• Reseller• Calling Card• Call Shop</div></div>
	<div>Additional Filters</div>
	<div>There are the following accessible additional filters:<ul style="list-style-type: none">• By clients: <i>Client Tags, Owner.</i>• Extras: <i>Package.</i></div>
	<div><div>Client Tags</div><div>Specify certain tags to filter clients and show more detailed results in the report</div></div>
	<div><div>Owner</div><div>Define a reseller for the report</div></div>
	<div><div>Package</div><div>Enter a package for the report</div></div>
Group by	<div>There are the following accessible options to group the data in reports:<ul style="list-style-type: none">• Time: <i>Year, Month, Date.</i>• Extras: <i>Package Name.</i></div>
Output	This form contains settings for the output data of the report.
	<div><div>Type</div><div>Choose a format of the report from a drop-down list: Web/CSV/Excel XLS/Excel XLSx</div></div>

Send to	<p>You can send generated reports via email. Also, it is possible to specify several emails.</p> <div>  Attention </div> <p>This feature is available only for CSV/Excel XLS/Excel XLSx formats of the report, it doesn't work with Web.</p>
Currency	Specify a currency for the report. All values will be automatically converted to the specified currency in the report.
Active Duration	Determine the period (in months). If the customer has used any paid services within this period, (s)he will be considered an active client.

A generated Customer Dynamics report is demonstrated on a screenshot below:

Tip

To find more details about templates, please refer to the [Report Templates](#) article in our **User Guide**.

Customer Dynamics buttons: export, chart.

You can export data to a **CSV** and **XLSx** file, which contains only currently displayed data, with no automatic request to update data while exporting. Also, it is possible to create charts for illustrating crucial information easily:

1. To download a report in **.csv**, click on the **Export to CSV** button above the report.
2. To download a **.xlsx** file, click on the **Export to XLSx** button above the report

3. To create a **visual chart**, click on the **Show Chart**  button above the report. There is more information available on this topic in the article [How to create a statistic chart?](#) in our Knowledge Base. From the drop-down list on this option, you can find the next pre-configured templates for the chart:

- **Clients - Active: Qty**
- **Balance Refill: Total**
- **Pay as you Go: Total**
- **Packages: Renew Total**
- **Blank Chart**

Therefore, you can create a new chart or select **Blank Chart** to have a new empty worksheet for configuring a custom chart

4. You can check an actual date interval by clicking on the **Info**  icon. The displayed data could be different from the Interval specified above if there is no data for the period.

Screenshot: Customer Dynamics chart

Sharing a Report

Each time you get a report output, the system generates a unique link in the format of "/view?id=<uniq-string>". It allows sharing data between the users, even if they belong to different resellers (the feature works similarly to Share by Link in Google Drive).

The link refers to the report data valid for a specific moment.

Example: When you send a link to a report, you ensure the recipient would see the same data as you do. If you change data in the system (for example, perform rerating), the previously copied link to the report will display data valid for the moment of generation (even though the actual data is now different).

You can also view the additional information about the generated report by hovering over the **Info**  icon, which is located under the **Output** section:

Title	Description
Data Period	States the period set for a report
Generated by	Indicates the Role of the user who generated a report and specifies a generation time
Duration	Time spent to generate a report
