Section overview

The **Routing Plans** section is available if your JeraSoft Billing includes the **Routing Module**. To access the *Routing Plans* section, please log in to your system and go to **Routing > Routing Plans**.

This section allows managing your routing rules for customers, providers, and destinations. Each routing plan should be assigned to a respective customer (originator) for the proper work of the routing process.

You can combine both routing rules (**dynamic** and **static**) while creating a routing plan, also assign separate rules to each destination. Here you can find a list of created routing plans.

Routing Plans							
New Routing Plan							
Rows 1 – 6 of 6 20 Page 1 of 1							
ID	Name	Reseller	Code Deck	Rules Hunting	DR Order	Rules	
7	AZ General	Company A	DEFAULT	longest only	by code / appeal	1	
8	AZ Premium	Company A	DEFAULT	longest only	by code / appeal	1	
6	DR: DID + Simple LCR	Company A	—	longest only	by code / appeal	2	
3	DR: Proportional	Company A	—	longest only	by code / appeal	1	
2	DR: Simple LCR	Company A	—	longest only	by code / appeal	1	
1	DR: Simple Quality	Company A	—	longest only	by code / appeal	1	

Column	Description
ID	ID number of a routing plan
Name	Name of a routing plan
Reseller	Name of a reseller a corresponding routing plan has been assigned to as an owner
Code Deck	Name of code deck that has been applied to a corresponding routing plan
Rules Hunting	A respective hunting rule that has been applied to a routing plan
DR Order	A name of dynamic routing order that has been selected to organize routing rules
Rules	A number of rules specified in a respective routing plan

Functional **buttons/icons**, presented in the section, are as follows:

Button/Icon	Description
	Allows to create a new routing plan
	Allows to copy an existing routing plan to the section
	Allows deleting a routing plan from the system

Advanced Search

In the top right corner of the section above the table, an **Advanced Search** drop-down menu is located. By clicking on a blue downward arrow  icon, a drop-down menu with the following structure is displayed:

Screenshot: Advanced Search drop-down menu

Reseller:

all resellers

Allowed for:

all resellers

Code Deck:

Tags:

Additional DR plan:

TERM Client:

Reset

Search

Field	Description
Reseller	Select from the list of all Resellers, Sub-resellers and Managers registered in the system
Allowed for	Select from the list of all Resellers, Sub-resellers, and Managers that are assigned to a routing plan in the Origination Limit field
Code Deck	Select from the list of all Code Decks in the system
Tags	Specify a certain Tag that was added to a routing plan
Additional DR Plan	Select a routing plan that was assigned as an additional in the Additional Routing Plan field
TERM Client	Specify a termination client that was assigned to any routing plan rule

To apply the specified search criteria, click the **Search** button; to cancel the applied parameters, click the **Reset** button.

Adding a New Routing Plan

To create a new routing plan, click the **New Routing Plan** button, and fill in the following fields in the pop-up window.

	<div>PM</div> <div>Define a Profit Margin value for a current rule here. It can be specified either as a percent value (e.g., 16%), or in a system currency (e.g., 5 for 5 USD).</div>																																							
	<div>Vendor Limit</div> <div>Determine the number of allowed routes for the same vendor to use (if a vendor has multiple accounts). You can set the limit only for accepted account routes, not including the accounts blocked by the term groups. If the field is left empty, the number is unlimited.</div>																																							

Attention

Please note that the **Origination Limit** and **Termination Limit** fields are visible only during:

- new routing plan creation;
- editing of already created routing plan if a specified **Reseller** of this routing plan has **at least one sub-reseller or manager**.

Routing Rules tab

Once a routing plan has been created, routing rules are to be determined (see screenshot below). To do that, click on a routing plan's name and you will enter **Routing Rules** tab, then, click the **Add rule** button and fill in the following fields:

If nothing is specified, it works for all.</div><ul style="list-style-type: none">• all - applies for originators if all specified tags are present.• any - applies for originators if at least one of the specified tags is presented.</div></div></div>

• Terminator tags

Here you can add terminator tags that will be used for terminators. If nothing is indicated, it works only for terminators **without** tags. Ple

• Time Profile

Specify a time profile from the list

• Expiration Date

Here you can determine if a Rule will expire or not. If a date/time is specified here, the respective Rule will stop working after said times
If empty, the said Rule will work indefinitely.

If the Expiration Date will be set for the past, it will be highlighted in red to draw attention that it's not in use. With the next run o

• Balancing

Define the percentage or proportion amount of traffic, which will be sent to a respective vendor who participates in balancing

Attention

Please note that after changing *balancing value*, you will need to restart the **Traffic Rules manager** or wait till its next run.

Among the rules of the same priority, balancing will not be performed if the value is 100 or more in the **Balancing** field.

Useful tip

To balance routes equally among, say, three vendors, you can set **Balancing** to 33/33/33 for them OR 1/1/1 OR 99/99/99, etc.

Priority	Code	Code Name	Type
1	1907	ALASKA	Static Client
1	1907	ALASKA	Static Client

Import/Export tab

The Import/Export tab allows a user to either upload desired routing rules (choose a file on a computer through a form and click **Process**), or download current routing plan rules in a .csv file by clicking the **Process** button (see screenshot).

Screenshot: Import/Export tab

Routing Rules

Import / Export

Routing Plan

DR: Complex LCR

IMPORT ROUTING RULES
Select CSV file to import rules (please refer to VCS Users Guide for correct import column order). All current rules will be removed.

EXPORT ROUTING RULES
Export rules to CSV file. After export you can use external editor to edit the file.

Select file: No file chosen

Please pay attention that the column order in importing file must correspond to the one presented in the screenshot below.

Screenshot: Importing file format

Code	Code name	Priority	Type	Client	Account	Policy	PM	Time Profile	Number length min	Number length max	Balancing	Originator Tags	Terminator Tags	Capacity	Stop Hunt

1		1	Static	Vendor Lotos				all time			30				
1		2	Dynamic			Simple Quality		all time			100	origination group 1	Termination group		
*		2	Dynamic			Simple LCR		all time			100				
2		1	Static	Vendor Figaro				all time			50	origination group 2			
3		1	Static	Vendor Profit				all time			100				
4		1	Static	Vega_DID_provider				all time			100				

Attention

After all information has been entered and rules created, you need to go to **Management > Clients/Accounts** sections and assign this routing plan to one or more of your origination clients or client's accounts.

Routing Plan

If you wish to change your routing plan settings, you can always do so by going to the Routing Plan tab. The list of fields in a tab is identical to that on a routing plan creation page (see screenshot below).
